

## Forthcoming papers

Reflexology and bronchial asthma

**T. Brygge *et al.***

*In vitro* secretion of cytokines and prostaglandin-E2 by monocytes from lung cancer patients

**Y. G. Trejo *et al.***

Living with severe COPD. A qualitative exploration of the experience of patients in Leeds

**S. J. Guthrie *et al.***

Prophylactic cranial irradiation in limited disease small-cell lung cancer in complete remission; a retrospective analysis

**Y. M. van der Linden *et al.***

Relevance of dyspnoea and respiratory function measurements in monitoring of asthma: a factor analysis

**M. Grazzini *et al.***

Respiratory disorders in common variable immunodeficiency

**M. A. Martinez Garcia *et al.***

Comparing the adrenaline-pirquet test with international PPD tuberculin tests

**H. F. Jentoft *et al.***

Hypercalcaemia in Greek patients with tuberculosis before the initiation of antituberculosis treatment

**A. Roussos *et al.***

The pitfalls in the diagnosis of complicated pulmonary hydatid disease

**M. Tor *et al.***

Efficacy of HFA-beclomethasone dipropionate extrafine aerosol (800 mg day<sup>-1</sup>) versus HFA-fluticasone propionate (1000 mg day<sup>-1</sup>) in patients with asthma

**M. Aubier *et al.***

Comparison of asthma costs in patients starting fluticasone propionate compared to patients starting montelukast

**D. A. Stempel *et al.***

Expressions of integrins in human cultured mesothelial cells: The roles in cell-to-extracellular matrix adhesion and inhibition by RGD-containing peptide

**Y. S. Liaw *et al.***
